

Information and updates from KE2 Therm Solutions

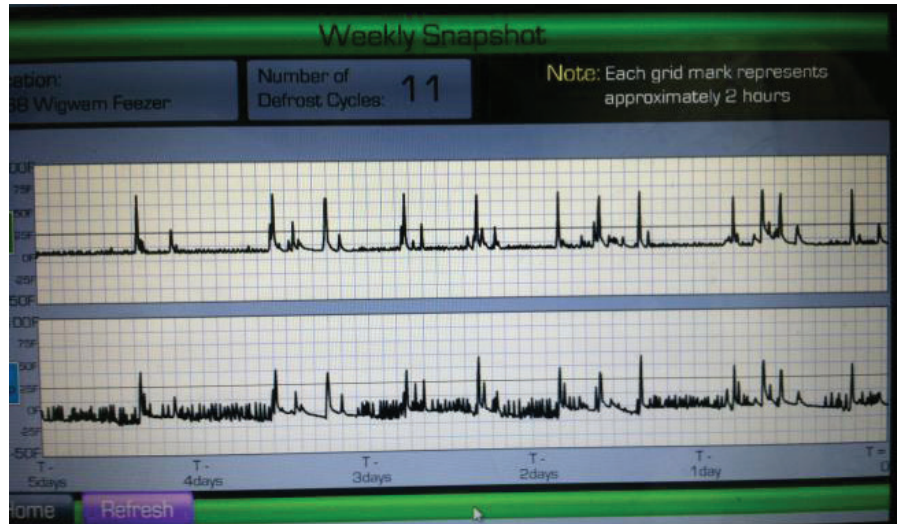

Contractor Quote:

"So it's been extremely hot and humid here in Vegas the past couple weeks. I've spent a good portion of my time de-icing cases, clearing drainlines, thawing out AC coils, like that. Then I went to see how my sandwich franchise with KE2 Therm was holding up in their walk-in freezer.

What I found blew me away. Not a spec of frost on the coils, box down to temp, and still only used 11 defrosts in the span of time that used to use 20.

KE2 Therm your technology ROCKS!"
