KE2 Evap/KE2 WiFi Tool Year End Promotion

With every purchase of 8 units of the KE2 Evaporator Efficiency controller, pn 20178, receive 4 free KE2 WiFi tools. Program runs from November 18 to December 20, 2013

KE2 Therm KE2 WiFi Tool Service tool for connecting to KE2 Evap webpage easier – increases jobsite efficiency

Accessing the KE2 Evaporator Efficiency's Graphical User Interface (GUI) or webpages previously involved connecting with a router. While the router is the way to go for long term installation, for use as a service tool, the KE2 WiFi allows nearly instant wireless access to the webpages on the controller.

With the KE2 WiFi tool, users can connect their cellphones, tablets, or laptop computers to the unsecured wireless network. Once connected via the KE2 WiFi, users can monitor and control the system as they would when connected via a router.

Step-by-step instructions for the KE2 WiFi Tool are found in bulletin Q.5.26 August 2013, available at www.ke2therm.com/productliterature.html.
