

Prevent food loss & record temperature & humidity data

Walk-ins ■ Reach-ins ■ Under Counter ■ Cold Rails ■ Commercial Fridge

KE2 Edge Manager & KE2 Wireless Sensor Kit

Prevent food loss.

- Eliminate manual temperature tracking
- Record temperature & humidity data for one year+

Remotely monitor a wide variety of refrigeration or other temperature & humidity sensitive applications.

The KE2 Edge Manager and KE2 Wireless Sensor combo provides real-time data tracking, storing, and uploading. And, while many monitoring options force users to store their data on the provider's "cloud," with the KE2 Edge Manager, local access is FREE - the user owns their data. And, accessing the data has never been easier. The KE2 Edge Manager lets users access data locally, on their network, using their own "cloud" portal, or via the secure KE2 Portal.

KE2-EM35 & KE2 Wireless Sensors Kit

KE2 EM 35 - For up to 35 sensor & controllers

KE2 Wireless Sensors For temperature & humidity

The KE2 Edge Manager incorporates features similar to the KE2 LDA communication device. It provides communication with KE2 Therm controllers and KE2 Wireless Sensors. Several additional features make the KE2 Edge Manager unique, including: extended ambient temp ratings, commercial/industrial enclosure, extended wireless range, hybrid cloud architecture, co-location data options. And, with a KE2 Edge Manager, creating a common dashboard, that integrates sensor data with the controllers in-depth system operational information, has never been easier.

KE2 Edge Managers range in ability, communicating with up to 35, 100 or 250 KE2 Therm controllers or sensors. And, the KE2 Edge Manager and the KE2 Wireless Sensors do not require programming, so installation is quick and easy. ■

Features & Benefits:

- Automatically provides a real-time dashboard of up to 35, 100 or 250 (depending on pn) KE2 Therm controllers or KE2 wireless sensors.
- Detailed graphs with time stamps
- Easy remote access via KE2 Smart Access or ke2.io portal using any Ethernet or wireless device (ex: laptop, desktop, tablet or mobile.)
- High-accuracy readings of temperature (tenths of a degree) and humidity +/- .25%
- Serves as a KE2 Therm BACnet IP and Modbus Gateway.
- Wireless tethering & bridging.
- Provides a wireless access point.
- Configurable location name.
- E-mail alarm notifications & real-time access to your data.
- Data logging - Maintain accurate records - Eliminate manual temperature tracking.

KE2 Edge Manager & KE2 Wireless Sensors

Description	Part Number
KE2 Edge Manager KE2-EM35	21634
KE2-EM35 & (5) Sensor Kit (Kit includes (3) 21632 & (2) 21633)	21660
KE2 Wireless Sensor	21632
KE2 Wireless Sensor (10 Pack)	21687
KE2 Wireless Sensor with Remote Probe	21633
KE2 Wireless Sensor with Remote Probe (10 Pack)	21688
KE2 Edge Manager KE2-EM100	21629
KE2 Edge Manager KE2-EM100DL	21636
KE2 Edge Manager KE2-EM250	21635
KE2 Edge Manager KE2-EM250DL	21585
