

KE2 Therm Earns Another Industry Award

KE2 Temp + Valve Wins Dealer Design Award

KE2 Therm continues its winning product line with a sixth industry award. The company was recognized for excellence in product design, this time for the KE2 Temp + Valve refrigeration controller.

The Dealer Design Awards are sponsored by The Air Conditioning Heating & Refrigeration News magazine. An independent panel of industry contractors acted as judges for the contest, selecting the winning products based on their ability to improve the installation, service, and maintenance of HVACR equipment.

The KE2 Temp+Valve was honored with a Bronze Award in the Commercial Controls category.

Designed and produced in Washington, Missouri, the KE2 Temp+Valve replaces a refrigeration thermostat and a defrost time clock, simplifying installation and saving time. In addition, the KE2 Temp + Valve Control drives an electronic expansion valve, electronic evaporator pressure regulating valve or an electronic hot gas bypass valve, providing much tighter system control than possible with mechanical controls.

When used with the KE2 LDA Communication device, the controller can be monitored and adjusted remotely, allowing contractors to troubleshoot remotely, or to evaluate system performance, prior to a service call. Alarm notifications via text or e-mail are another bonus for contractors, when using the KE2 Temp+Valve with a KE2 LDA.

Winning entries in the Dealer Design Awards are featured in the July 24, 2018 issue of The ACHR News. ■

Contractors Buy 5, Get 1 Free Promotion Ends August 31st.

KE2 Temp SUMMER Truck Stock SALE

Every 5 you buy, get 1 Free*

Why use the KE2 Temp over other thermostats and timers?

- Replace a defrost time clock and thermostat
- Programmable defrost schedule
- Manual reset timer
- Free communication, when used with the KE2 LDA - Remote Monitoring, Control, Alarm Notifications

The KE2 Temp includes KE-403 Multi-communication, and can also be installed remotely using the KE2 Local Area Dashboard and Alarm (KE2 LDA).

- Service Call Saver - Post Defrost Indicator

To eliminate unnecessary service calls, the KE2 Temp Defrost alerts the user when it is coming and if a defrost cycle is in progress.

Don't forget to earn points for more free product by registering your controllers in our Contractor Loyalty Program.

Find an Authorized Wholesaler at: <http://ke2therm.com/where-to-buy/>
